

HCARES April 5, 1997 Meeting

- Subject is Weather training
- It was requested that we add the National Weather Service ID number assigned to each amateur radio operator that has been certified to our HCARES database. Then have this number show up on the mailing list. The weather service assumes that all those that have checked into a weather net are certified. The certification number may be requested during the weather nets. By adding this number to our list, we could speed up sign in to the net.
- Andy, N9WCN started the meeting.
- Russ, WA0JTL, produced the newsletter and did a fantastic job.
- Ed, Field Day; Going 4A for Field day. Need Lap tops. We will need to move to a differet site in Cool park.
- Matt suggested that we get a tour of WISH TV tour for May.
- Phillis from the Red Cross is setting up some classes for Saturday in May. We need some people certified to help with the Red Cross during a disaster. The training may be put into a meeting.
- The Boy Scouts sent a few to be trained for their merit badge.
- Matt said that he wants to use the Weather Spotter's number on the Weather nets.
- A map of the county is available from the County office building.
- The National Weather Service's Web Page: <http://www.crhnwscr.noaa.gov/ind/start.htm>
- The mailing address for information on the video shown the National Weather Service is:
 - Texas Severe Storms Association
 - P.O. Box 122222
 - Arlington, TX 76012
 - Phone number: 817-265-9619
 - Cost is around \$ 25.00

-
