

HCARES MEETING NOTES 9/12/98

- Arnal Cook, N9AKX, called meeting to order at 9:11 AM.
- Field Day went very well. Everyone had a good time. WA0JTL, Russ Simpson submitted the results. Ed Sheets also helped.
- The 145.17 MHz Repeater (Ritron Test machine) went from 30 watts to 8 watts of power
  - The duplexors were OK and set to the correct frequency.
  - There may be some other damage.
  - The 147.17 is still operating with the old tube repeater. The output tube has not been changed and may need a new driver tube. The system uses a 77 Hz tone to activate the repeater.
  - The net needs net control volunteers.
  - Next meeting we will be nominating Club officers.
  - Had a discussion on intra-governmental frequency sharing – Arnal Cook – N9AKX
    - FEMA
    - CAP – Civil Air Patrol
    - MARS
    - We were shown how to make a multiple frequency dipole with many antennas in one feed.
