Bryce can be reached at: [N9WF@arrl.net](mailto:N9WF@arrl.net)

**For Sale:**

- Kenwood TS-2000, including Diamond MX-2000N triplexer that allows one antenna to connect to the HF connection (6M), VHF, and UHF antenna connections, RSP-1 Radio Spectrum Analyzer which allows one of the bands in the radio to be displayed on a TV, and a MFJ-1708 which allows you to utilize both band of the radio on the same frequency on the same antenna and not transmit back into the radio. This setup allows you to have a frequency scope displayed on the same band that you are working on. I have used the radio a limited amount and it is an amazing all-band radio. \$950

- Jetstream JTPS28M power supply with dual meters - \$60

- SignalLink USB Sound Card - I have two with cables - \$50 each

**Please Consider****Become a Net Control Operator**

One of the purposes of this net is to help others learn how to be a net control.

**And, we want and need new Net Control Operators!**

You don't have to feel self-conscious, because if you stumble, we'll be there to help!

If you are interested in learning how to run this net, please let us know. We need additional new net control operators. No experience is necessary, we will train you on the this net.

We can also assist with callsign logging for your first few nets. Gaining radio experience by running a net will give you more confidence using the radio during an emergency, allow you to assist at the EOC during Storm Ops and will make you a better radio communicator.
